

## **Jerk**

I give you my body, don't show you my soul  
Only when I feel empty I can feel whole  
I gave you me- didn't work  
You didn't see- you're the jerk  
I gave you my hand and you wanted to spent a lot of time in a foreign land  
I gave you me- didn't work  
I didn't leave- I'm the jerk

And in time we will realize  
That it was all just pretending  
And all this practice was there to specialize  
To know that wasting isn't spending

We were made for each other  
Because we ain't  
We hurt one another  
And ima faint  
I gave you wings- didn't work  
Now your pulling my strings- I'm the jerk  
You give me your heart, now you want mine I think I'm taking part but I'm still falling behind  
Give me your trust- didn't work  
I'm left in your dust- you're the jerk

And in time we will realize  
That it was all just pretending  
And all this practice was there to specialize To know that wasting isn't spending
