

## Maze

The Night is the darkest before the rise of the sun  
I know the maze we both know the place - lets run

We could try now  
to get out  
You confuse me and you bruise me so you lose me and I choose to shout

If you wanna go just let me know  
Let me know

If you wanna join the ride  
we could escape the night and if you wanna join the ride  
we could fight the light  
If you wanna join the ride  
we could escape the night and if you wanna join the ride  
we could fight the light

The moon is the guide that we both aim to find  
I am aware of you getting left behind  
we share one road but the cup has overflowed now we're colder and we're older and sober that's  
what life showed

If you wanna go just let me know ... let me know

If you wanna join the ride  
we could escape the night and if you wanna join the ride  
we could fight the light  
If you wanna join the ride  
we could escape the night and if you wanna join the ride  
we could fight the light

Get lost now  
Get lost now  
Get lost with me  
Don't waste it  
Embrace it  
Chase the opportunity  
So let's find out what we can't see  
There's nothing more we need  
Get lost now  
Get lost now get lost with me

If you wanna join the right we could forget the night If you wanna join the ride we could fight the  
light

If you wanna join the ride  
we could escape the night and if you wanna join the ride  
we could fight the light  
If you wanna join the ride  
we could escape the night and if you wanna join the ride  
we could fight the light
